DEAR SCOTT CUSTOMER:

It's not too late to order some of SCOTT'S high quality noxious weed free Farm Seed. Most seeds can be shipped within a day of the time the order reaches us. Freight deliveries have been faster than for the past 5 or 6 years and seed has reached customers in excellent condition. Small quantities needed in a hurry can be sent parcel post insured or by express. Use the enclosed order blank and get your order made out and mailed today.

SEED SITUATION

Generally, supplies of alfalfa, brome, timothy and a few minor items are getting short because of low production last year. Don't delay on them and if you are planning to summer seed alfalfa or brome and want a particular kind it may be wise to order this spring.

Red clover, mammoth, alsike, ladino, meadow fescue, lespedeza and a few other seeds seem plentiful. However, rather large quantities are still in growers' hands so temporarily some items may run short until large handlers can get seed in and processed.

There appears to be enough top quality oats and barley with the possible exception of Clinton 59. The same is true on hybrid seed corn. While our supplies are still good on all these seeds we would suggest a second choice be listed on late orders or we can write if out of the particular kind you want.

Soybean seed supplies are hard to predict. Early harvested beans went to market when weather conditions were unfavorable and many beans carried too much moisture. Some of the western states have run into low germinations and some beans have been artificially dried. Whether enough beans will be cleaned and tested is anybody's guess but we feel that there may be a rush for good seed near planting time.

If you can use another copy or two of "Pastures" let us know.

Sincerely,

SCOTT FARM SEED COMPANY

SCOTT'S CUSTOMERS SAY

We have always found your seeds better than average, always as advertised, and we fully expect to continue to do business with you so long as we need farm seeds.
Stone, Ky.

FOSTER L. APPLE.

Your seeds have always been entirely satisfactory and I have always been well pleased with the prompt and courteous attention my order received.
Gibsonia, Pa.

WM. J. CATHERWOOD.

I can say your seed is the best I have ever used. I believe every seed came up and say it produced one hundred percent. I have recommended your seed to many a farmer as the best.
Linton, Ind.

PIERCE WRIGHT.

I like your high quality seed corn, also your grass seed. Both have given me good results.
Meadow Bridge, W. Va.

E. R. GWINN.

We would appreciate it if you could supply us with 100 copies of Crop News and Views, No. 1, Vol IV, "Keeping Up to Date. This is a good writeup on the new varieties of forage crops.
Ames, Iowa.

VIRGIL B. HAWK.

MEADOW AND PASTURE MIXTURES

MEADOW MIXTURES

Seed 14—18 lbs. per acre

For High Lime Soils

SCOTTS Alfalfa Mixture...\$49.50 cwt.
(Alfalfa, Red Clover, Timothy)

For Medium Lime Soils

SCOTTS Red Clover Mix \$45.50 cwt.
(Red Clover, Alfalfa, Alsike, Timothy)

Where Soil is Acid or Drainage is Poor

SCOTTS Red Clover Alsike \$41.50 cwt.
(Red Clover, Alsike, M. Fescue, Timothy)

For Medium Lime Soils (No Grasses)

SCOTTS Legume Mixture \$57.50 cwt.
(Red Clover, Alfalfa, Alsike)

SCOTTS Crop-Land Pasture Mixture

.....\$60.00 cwt.

Contains Ladino, Louisiana White Clover, Birdsfoot Trefoil, Kentucky Bluegrass, Alta Fescue, Reed Canary Grass, Brome Grass, Orchard Grass, Perennial Ryegrass and Redtop. Sow 25—30 lbs. per acre.

SCOTTS Crop-Land Mix is suggested where the field is to be left in pasture for at least five years and where heavy grazing is desired. Apply fertilizer, and lime where needed, and follow recommended seeding methods.

Green Manure Mixture.....\$32.00 cwt.

Eighty percent legumes for soil building and plow under. May also be used for pasture or hay. Contains Mammoth, Sweet Clover, Alsike and Timothy. Sow 15—18 lbs. per acre.

SCOTTS Spring Pasture Mixture.....

.....\$39.00 cwt.

A balanced, widely used mixture of legumes and grasses containing ladino clover for establishing highly productive permanent pastures. Contains alfalfa, red clover, alsike, ladino, Kentucky bluegrass, meadow fescue, timothy, orchard grass and ryegrass.

Special Pasture Mixture.....\$27.00 cwt.

A good mixture where lespedeza can be grown successfully. Forty percent legumes by weight. Contains alsike, white clover, lespedeza, ryegrass, meadow fescue, timothy and orchard grass.

Pasture mixtures are sown 20 to 25 lbs. per acre for new seedings and 10 to 15 lbs. per acre for reseeding an established pasture.

TREATED HYBRID SEED CORN

SCOTTS Hybrid Corn has been graded for width, length and thickness and will plant easily and accurately in any make of planter. Ohio certified Hybrids not listed are available upon inquiry.

The round kernels are graded uniformly and will yield just as well as the flats but special plates are usually required for accurate planting. All corn is treated for protection against disease.

EARLY MATURING HYBRIDS

SILAGE BLENDS (Flats) (Early or Late).....\$6.00 bu.

WOODBURN (Open Pollinated).....\$6.00 bu.

ROUNDS—Only medium and large rounds are offered. Carefully graded, high in germination, produce strong plants, and will yield as well as flats at a saving in seed cost. The same grades are available each year.

SCOTTS 11—Slightly earlier than Ohio M-15. Large ears for an early hybrid. Has out-yielded Ohio M-15. Sound dark yellow ears. Suited to short season or late planting.

SCOTTS 22—The maturity of Ohio M-20 and M-34. Has outproduced its maturity class on many different farms. Good roots, sound ears, good quality fodder, dries out quickly.

SCOTTS 33—Maturity of K Hybrids. A real producer with disease and smut resistance. Easy husking, nice fodder, not as tall as K-24. Will pick clean and crib early.

SCOTTS 66—One of the best medium maturing hybrids in the corn belt. Disease resistant, husks easily, strong roots, high yields on a wide variety of soils.

SCOTTS 60 W—A white hybrid, medium sized fodder and ears. A good producer in its maturity class. Strong roots and stalks, good crib corn. Thoroughly tested in the corn belt.

EARLY SILAGE BLEND—A blend of the earlier maturing hybrids for short season use. Seed is uniformly graded flats and above 90% germination. Will plant 8—10 acres per bushel and may be used for crib corn.

SCOTTS 75—Slightly earlier and not quite as tall as most of the C Hybrids, blight resistant, sturdy stalks, large dark yellow ears, bred for handy size and high yields.

SCOTTS 99—Maturity of U. S. 13 and bred for more corn borer resistance and higher yield. Dark green color. Not quite as tall as U. S. 13. Good sized, sound ears.

LATE SILAGE BLEND—A blend of the later maturing hybrids recommended for full season planting. Slight variation in maturity gives high yields of balanced quality feed. May be used for crib corn. Flat kernels.

SEED OATS, BARLEY

Clinton (Certified)	\$1.80 bu.
Clinton 59 (Certified).....	2.60 bu.
Mohawk (Certified)	2.25 bu.
Mindo (Certified)	2.00 bu.

Mindo—Equal to Clinton in disease resistance, 4 to 5 days earlier maturing, stiffer strawed than Columbia.

Clinton (from Certified).....	\$1.60 bu.
Benton (from Certified)	1.50 bu.
Eaton (from Certified)	1.50 bu.
Barley (Wisconsin 38).....	3.00 bu.
Barley (Bay—Michigan Grown)	3.00 bu.

All Seed Oats and Barley are treated without extra charge. This treatment is recommended by the U. S. D. A. and State Experiment Stations for the control of certain smuts and seedling diseases. Treatment improves stands, yields and quality of grain.

SOYBEANS

Hawkeye (Certified)	\$5.50 bu.
(Maturity and standing ability of Richland. Yield equal to Lincoln.)	
Richland (Uncertified)	3.60 bu.

Lincoln (Certified)	\$3.85 bu.
Lincoln (Uncertified)	3.50 bu.
Black (Kingwa Type).....	3.60 bu.

Inoculation, necessary if beans are to add nitrogen to the soil, is furnished on orders without additional charge.
